

Power stations expected to close before 2025

A number of coal- and oil-fired power stations are due to close by the end of 2015 as they have opted out of the Large Combustion Plants Directive (LCPD). These plants may shut sooner if they have already used up their 20,000 hours limited running allowance. Nuclear power stations which are reaching the end of their operational lives have expected closure dates, but these may be extended in some circumstances.

| Plant closures to 2025 | | | |
|------------------------|------------------------------|---------------|-----------------------|
| Power station | Operator | Capacity (GW) | Expected closure date |
| Coal | | | |
| Cockenzie | ScottishPower | 1.2 | by 2015 |
| Didcot A | RWE npower | 2.0 | by 2015 |
| Ferrybridge | Scottish and Southern Energy | 1.0 | by 2015 |
| Ironbridge | E.ON UK | 1.0 | by 2015 |
| Kingsnorth | E.ON UK | 2.0 | by 2015 |
| Tilbury | RWE npower | 1.1 | by 2015 |
| Oil | | | |
| Fawley | RWE npower | 1.0 | by 2015 |
| Grain | E.ON UK | 1.4 | by 2015 |
| Littlebrook | RWE npower | 1.1 | by 2015 |

| Plant closures to 2025 | | | |
|-------------------------|----------------|---------------|-----------------------|
| Power station | Operator | Capacity (GW) | Expected closure date |
| Nuclear (Magnox) | | | |
| Oldbury | NDA | 0.4 | 2010 |
| Wylfa | NDA | 1.0 | 2010 |
| Nuclear (AGR) | | | |
| Hartlepool | British Energy | 1.2 | 2014 |
| Heysham 1 | British Energy | 1.2 | 2014 |
| Hinkley Point B | British Energy | 0.8 | 2016 |
| Hunterston B | British Energy | 0.9 | 2016 |
| Dungeness B | British Energy | 1.0 | 2018 |
| Heysham 2 | British Energy | 1.2 | 2023 |
| Torness | British Energy | 1.2 | 2023 |
| Total | | 20.7 | |
